

Trainee Surveyor Opportunity

Who we are

Speedclad is a leading cladding and curtain walling facades contractor carrying out design, supply and installation packages for high profile clients. We operate from offices in Northallerton, Birmingham and Doncaster and work on a national basis on a range of projects across the public, leisure, education, retail, commercial, health and industrial sectors. Our contracts range from £100,000 to in excess of £5.5 million.

Speedclad is a forward-thinking and motivated company with an established reputation for innovation, professionalism and high levels of client care. We are an enthusiastic team, committed to maintaining excellent standards of quality, health, safety and sustainability, whilst offering our clients best value. At Speedclad we recognise the importance of promoting enjoyable employment and we value our staff and support their development.

The Opportunity

Following continual growth and ongoing success we are now looking for a Trainee Surveyor to work closely with one of our experienced Senior Surveyors, looking after the commercial aspects of projects based, generally, along the M62 corridor and North Midlands. **This is a role in which the successful candidate will develop, with appropriate mentoring and training, into the position of Surveyor and become capable of:**

- Carrying out internal and external valuations in accordance with agreed timescales.
- Identifying, valuing and agreeing variations with the main contractor and also subcontractors.
- Carrying out take-offs for procurement purposes.
- Liaising with Main Contractors to agree valuations and agree final accounts.
- Following up on monthly applications, chasing payment dates for outstanding monies.
- Conducting commercial evaluations including evaluating/ tracking costs against project margin.
- Setting CIS labour rates for measure CIS operatives.
- Completing the sub-contract payment schedules and ensuring all CIS invoices are issued.
- Carrying our buying exercises on materials, plant and subcontractors.
- Procuring materials, plant and specialist subcontract packages.
- Controlling the commercial elements of each project and working closely with the commercial team to achieve targets.
- Setting up templates for monthly applications and project reports for secured projects.
- Compiling information on the project labour spend to ensure that works are being installed within the tender allowance.
