

Health & Safety Assistant (Construction)

Who we are

Speedclad is a leading facades contractor carrying out cladding and curtain walling, design, supply and installation packages for high profile clients. We operate from offices in Northallerton, Doncaster and Birmingham and work on a national basis on a range of projects across the public, leisure, education, retail, commercial, health and industrial sectors. Our contracts range from £100,000 to in excess of £7 million.

Speedclad is a forward-thinking and motivated company with an established reputation for innovation, professionalism and high levels of client care. We are an enthusiastic team, committed to maintaining excellent standards of quality, health, safety and sustainability, whilst offering our clients best value. At Speedclad we recognise the importance of promoting enjoyable employment and we value our staff and support their development.

The Opportunity

A vacancy has arisen for an experienced Health & Safety Assistant, to work under the direction of the company Health & Safety Manager in support of company operations, including a site visiting role. Predominantly this will be assisting in the health and safety management and support of projects across our 'Midlands & South' region, including East & West Midlands, Northamptonshire, Bedfordshire, Buckinghamshire and potentially further afield as the company continues its successful growth. The successful candidate will be joining a dynamic and motivated team at an exciting time in the company's development.

You will report directly to the Health & Safety Manager, being responsible for assisting with the review, implementation and communication of health and safety policies, procedures & systems in all aspects of project preparation, risk management, monitoring, site auditing and the delivery of health & safety in-house training requirements.

What you will need

You will need to have as a minimum:

- NEBOSH General & Construction Certificates.
- Technical, Graduate or Chartered membership of IOSH, as appropriate.
- Appropriate experience with a technical and practical knowledge relating to construction health & safety and a sound working knowledge of CDM 2015, its implementation and site management processes.
- A desirable (but not essential) knowledge of H&S relating to curtain walling & rainscreen cladding facades.
- A strong knowledge foundation relating to issues surrounding working at height.
- Applicable CSCS card. CPCS A61 'AP Lifting Operations' would be desirable, but not essential.
- Experience in training delivery for H&S topics.
- Good computer skills; proficient in the use of Microsoft Office applications.
- Full, clean UK driving license. The ability to travel daily to/from sites and undertake occasional overnight stays are a requirement of the role.
